Mobile

36 / 100 Speed

⚠️ Should Fix:

Enable compression

Compressing resources with gzip or deflate can reduce the number of bytes sent over the network.

Enable compression for the following resources to reduce their transfer size by 121.6KiB (75% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/style.css could save 42.3KiB (79% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/supersized.3.2.6.js could save 28.9KiB (81% reduction).

- Compressing http://doorbin.net/ could save 15.7KiB (72% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/custom.js?ver=4.8.6 could save 8.4KiB (69% reduction).

- Compressing http://doorbin.net/wp-includes/js/wp-emoji-release.min.js?ver=4.8.6 could save 7.4KiB (63% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/theme/supersized.shutter.min.js could save 5.6KiB (77% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/jquery.easing.min.js could save 5KiB (73% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/theme/supersized.shutter.css could save 3KiB (68% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/rtl.css could save 2.1KiB (71% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/jquery.tipsy.js?ver=4.8.6 could save 1.5KiB (62% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/css/supersized.css could save 895B (57% reduction).

- Compressing http://doorbin.net/wp-includes/js/wp-embed.min.js?ver=4.8.6 could save 647B (47% reduction).

Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

Leverage browser caching for the following cacheable resources:

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/css/supersized.css (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/grid.png (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/hide_menu_back.png (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/menu_back.png (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/menu_hide_arrow_top.png (expiration not specified)

Mobile

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/progress.gif (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/slider-bg.png (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/slider_pause.png (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/thumb-backward.png (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/thumb-forward.png (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/tooltip.png (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/jquery.easing.min.js (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/supersized.3.2.6.js (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/theme/supersized.shutter.css (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/theme/supersized.shutter.min.js (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/rtl.css (expiration not specified)

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/style.css (expiration not specified)

- http://doorbin.net/wp-content/uploads/2014/01/210.jpg (expiration not specified)

- http://doorbin.net/wp-content/uploads/2017/01/doorbin54.jpg (expiration not specified)

- http://doorbin.net/wp-content/uploads/2017/09/photo_2017-09-12_15-53-59.jpg (expiration not specified)

- http://doorbin.net/wp-content/uploads/2017/09/theater.jpg (expiration not specified)

Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 7 blocking script resources and 5 blocking CSS resources. This causes a delay in rendering your page.

Mobile

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

Remove render-blocking JavaScript:

- http://ajax.googleapis.com/ajax/libs/jquery/1.7/jquery.min.js?ver=4.8.6

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/custom.js?ver=4.8.6

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/jquery.tipsy.js?ver=4.8.6

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/supersized.3.2.6.js

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/theme/supersized.shutter.min.js

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/jquery.easing.min.js

- http://doorbin.net/wp-includes/js/wp-embed.min.js?ver=4.8.6

Optimize CSS Delivery of the following:

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/style.css

- http://fonts.googleapis.com/css?family=PT+Sans+Narrow%7CPT+Sans%3Ai%2Cb%2Cbi&ver=4.8.6

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/rtl.css

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/css/supersized.css

- http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/theme/supersized.shutter.css

Optimize images

Properly formatting and compressing images can save many bytes of data.

Optimize the following images to reduce their size by 1.2MiB (49% reduction).

- Compressing http://doorbin.net/wp-content/uploads/2017/01/doorbin54.jpg could save 520.4KiB (61% reduction).

- Compressing http://doorbin.net/wp-content/uploads/2017/09/photo_2017-09-12_15-53-59.jpg could save 361.2KiB (37% reduction).

- Compressing http://doorbin.net/wp-content/uploads/2017/09/theater.jpg could save 253.5KiB

(49% reduction).

- Compressing http://doorbin.net/wp-content/uploads/2014/01/210.jpg could save 18.5KiB (59% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/thumb-forward.png could save 14.5KiB (98% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/thumb-backward.png could save 14.5KiB (98% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/slider_pause.png could save 864B (87% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/slider-bg.png could save 854B (92% reduction).

- Compressing http://doorbin.net/wp-content/themes/79900_kingsize_fa3/images/hide_menu_back.png could save 734B (17% reduction).

🔶 Consider Fixing:

Minify CSS

Compacting CSS code can save many bytes of data and speed up download and parse times.

Minify CSS for the following resources to reduce their size by 11.3KiB (20% reduction).

- Minifying http://doorbin.net/wp-content/themes/79900_kingsize_fa3/style.css could save 9.3KiB (18% reduction).

- Minifying http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/theme/supersized.shutter.css could save 1.6KiB (38% reduction).

- Minifying http://doorbin.net/wp-content/themes/79900_kingsize_fa3/css/supersized.css could save 378B (25% reduction).

Mobile

Minify HTML

Compacting HTML code, including any inline JavaScript and CSS contained in it, can save many bytes of data and speed up download and parse times.

Minify HTML for the following resources to reduce their size by 3.1KiB (15% reduction).

- Minifying http://doorbin.net/ could save 3.1KiB (15% reduction).

Minify JavaScript

Compacting JavaScript code can save many bytes of data and speed up downloading, parsing, and execution time.

Minify JavaScript for the following resources to reduce their size by 23KiB (43% reduction).

- Minifying http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/supersized.3.2.6.js could save 14.2KiB (40% reduction).

- Minifying http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/custom.js?ver=4.8.6 could save 5.4KiB (45% reduction).

- Minifying http://doorbin.net/wp-content/themes/79900_kingsize_fa3/js/jquery.easing.min.js could save 3.4KiB (50% reduction).

Prioritize visible content

Your page requires additional network round trips to render the above-the-fold content. For best performance, reduce the amount of HTML needed to render above-the-fold content.

The entire HTML response was not sufficient to render the above-the-fold content. This usually indicates that additional resources, loaded after HTML parsing, were required to render above-the-fold content. Prioritize visible content that is needed for rendering above-the-fold by including it directly in the HTML response.

- Only about 12% of the final above-the-fold content could be rendered with the full HTML

response.

- Click to see the screenshot with only the HTML response: snapshot:13

Avoid landing page redirects

Your page has no redirects. Learn more about [avoiding landing page redirects](#).

`72 / 100` User Experience

🚨 Should Fix:

Configure the viewport

Your page does not have a viewport specified. This causes mobile devices to render your page as it would appear on a desktop browser, scaling it down to fit on a mobile screen. Configure a viewport to allow your page to render properly on all devices.

[Configure a viewport](#) for this page.

Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider [making these tap targets larger](#) to provide a better user experience.

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

- The tap target عکس آژانس and 6 others are close to other tap targets final.

Mobile

- The tap target prev is close to 2 other tap targets final.

- The tap target next is close to 1 other tap targets final.

- The tap target <img id="pauseplay" src="http://doorbin...ider_pause.png"> is close to 1 other tap targets final.

🔶 Consider Fixing:

Size content to viewport

The page content is too wide for the viewport, forcing the user to scroll horizontally. Size the page content to the viewport to provide a better user experience.

The page content is 1,000 CSS pixels wide, but the viewport is only 980 CSS pixels wide. The following elements fall outside the viewport:

- The element 10 falls outside the viewport.

- The element <p>تئاتر خود بعد...تئاتر عکس اول<p/> falls outside the viewport.

Use legible font sizes

The following text on your page renders in a way that may be difficult for some of your visitors to read. Use legible font sizes to provide a better user experience.

The following text fragments have a small font size. Increase the font size to make them more legible.

- اخبار عکاسی and 6 others render only 7 pixels tall (18 CSS pixels) final.

- 10 and 1 others render only 7 pixels tall (18 CSS pixels) final.

- / renders only 7 pixels tall (18 CSS pixels) final.

Mobile

- اول عکس تئاتر...بعد خود تئاتر renders only 5 pixels tall (12 pixels CSS) final.

✅ 1 Passed Rules

Avoid plugins

Your page does not appear to use plugins, which would prevent content from being usable on many platforms. Learn more about the importance of [avoiding plugins](#).
